

CAREER OBJECTIVE

Robert is a dedicated Azure DevOps Engineer with strong experience in monitoring, incident response, and stabilising cloud platforms in regulated financial environments. He currently works in a fast-paced tech consultancy, where he actively learns new techniques and trends in digital transformation and contributes to collaborative projects that deliver practical, innovative solutions.

As a young and ambitious engineer, Robert is committed to continuously upskilling with the latest tools and technologies through project work and self-development. With a genuine passion for mentoring and community engagement, he is focused on supporting the next generation of tech enthusiasts.
